Share your ideas with students using Virtual Whiteboard

Classroom management software

Net Control 2 Professional is classroom management software for local networks, has a 20-year history of development and use. Created by teachers and for teachers. Used in thousands of locations worldwide.

Powerful, flexible and cost-effective solution for education customers.

Helps teachers to use lesson time more effectively, improves quality of the teaching process, makes it more visual and interesting to students.

Why

Net Control 2 PRO

Specially designed for the sphere of education, provides access to more than 150 various teaching, monitoring and controlling features.

Easy in use and installation. Provides ways of centralized deployment to multiple computers in a domain environment.

Specially designed for large networks, BYOD and 1:1 environment. Includes sophisticated tools for managing classrooms, computers, users and teacher accounts.

Flexible in adaptation for different use scenarios.

The pricing model is specially adapted for extensive licensing and offers one of the best in the industry per computer license cost. No subscriptions. All licenses are always permanent.

System requirements

Microsoft Windows 10, 8, 7 (64- and 32-bit Editions), Windows Server 2019 – 2008.

Mac OS X 10.8 - 10.15 (Mountain Lion - Catalina)

Virtual machines that support the above specified operating systems as a "guest" OS, including **Microsoft Hyper-V Server, VMWare, Oracle VirtualBox, nComputing, Citrix, Wyse** virtual machines.

Terminal Server ("thin") clients of Windows Terminal Server/Remote Desktop Server, nComputing, Wyse and other terminal clients that use Windows user session virtualization.

Network: Ethernet or wireless local network 100 Mbit/sec and higher. Other local network realizations that support TCP/IP v4 and UDP protocols and required network bandwidth.

Bandwidth: 0.005-0.2 MBit/s per client: low-traffic operations - 0.01 MBit/s; direct full-screen control with keyboard and mouse - 0.2 MBit/s; broadcast teacher's screen to students - 0.15 MBit/s either for all recipients (Multicast is supported) or per client.

CPU and RAM: use the recommended by the manufacturer of the operating system hardware configuration for this OS version.

Disk space: at least 150 Mbytes of free disk space per installation.

Technical support and maintenance

All licenses are permanent for the purchased version of the software. Net Control 2 PRO licenses include two years of free upgrades and maintenance from the moment of purchase. After the free upgrade period, paid upgrades are available with 30-50% discounts. Such paid upgrades are optional and not required unless you need access to new versions and features. Actual upgrade policies are available on our website: https://www.netcontrol2.com/upgrade

The technical support is included and free without time limitations. After the free maintenance period we may be limited in ways of modifying of the older versions program code.

Trial and evaluation licenses are always available by request on our website: https://www.netcontrol2.com/downloads
